

Transferring to Another Route

If you need to take more than one route to reach your destination, ask the driver for a transfer. There is no cost for this service but you must request the transfer when you board the bus. Transfers are valid for direct transfer from one bus to the connecting bus on the next route. Each transfer is marked with the time, day, date, route and direction of travel..

Some bus stops have benches or shelters. While you're waiting, make sure you stand or sit where the bus driver can see you.

When your bus arrives, you will see the name of your route on the sign in the front windshield of the bus. This destination sign also tells you the direction the bus is traveling.
